HOW BEST DOCTORS CAN HELP YOU

CONNECT

Call us at 1-877-419-2378.

A Member Advocate, a Registered Nurse, will be dedicated to your case and will support you throughout the entire process. Your Member Advocate is available to speak with

you whenever you have questions.

It is important to note that Best Doctors does not replace your relationship with your current physician. Rather, we offer additional resources, support and information to you and your treating doctors.

After you sign a Release of Medical Information form, we will begin to collect your medical records on your behalf. Your Member Advocate will take your complete medical history and will answer any questions you have about your diagnosis or treatment. The information you share will never be passed on to your employer or health insurance plan.

INVESTIGATE

Our multi-disciplinary team of Harvard-trained physicians completes an in-depth analysis

of all medical information by deconstructing and reconstructing your diagnosis. All pathology is retested

by a top pathologist at a Center of Excellence. Choosing from a worldwide network of 50,000 specialists, the team then identifies the best qualified expert(s) in your illness to make a final determination.

ANSWER

The Best Doctors specialist prepares a comprehensive report

summarizing their findings that either confirms or changes your diagnosis and treatment options. Your Member Advocate will carefully review all the information

with you and answer any questions you may have. You and your attending doctors get valuable insights from top experts and constant support from the Member Advocates at Best Doctors – without leaving home.

When you receive the report you and your treating physicians can work together to choose the most appropriate next steps.
