

Here are the instructions for SmartFind access:

Please be advised that our SmartFindExpress substitute calling system has now been upgraded to the latest version.

Note the following changes:

- the new telephone access phone number (toll free) is **1-844-251-6720**
- the new Web Address is **<https://bluewater.eschoolsolutions.com>**
-

With the upgrade you will use the same ID and PIN to access the system (via telephone or web). ID is employee number, PIN you set yourself.

Substitutes should be aware that all callback numbers now have a long distance 1 added to them with the new upgrade since our new phone lines are all long distance. If you change your callback number, be sure to add a long distance 1 in the front.

•

If you have any further questions or concerns, please contact me. Have a great summer!
